Convener's message

Dear members of INTACH Madurai chapter,

Greetings to all. There are no two opinions about the fact that Madurai is the seat of art and culture, but it took 23 years for an organization like INTACH to form a chapter in this city.

Our state convener Mr.Suresh had mentioned, during an introductory meeting in March 2007 that efforts were made twice in the past to have a chapter in Madurai and this is the third time we are initiating this process to form a chapter here. "The first two times it had fizzled out and this time I'm sure it is going to be strong and ever lasting" he said.

He was so true. It has been 10 years since we got together and formed this wonderful chapter in one of the oldest continuously existing cities in the world. Since then we have grown multifold and became one of India's most prominent chapters. Our heritage walks, talks, spot visits, art restoration, workshops, cultural festivals, school programs etc have kept INTACH Madurai chapter very active and alive.

I hope we continue with this spirit. This tenth year is a notable mile stone in our chapters history. Next we must think bigger and take up social issues like water management and value education. We must plan and do at least three architectural restorations this year.

In this ten year journey INTACH Madurai has become one large family and I must say, but for this forum we wouldn't have known one another so well.

The central office has been really very nice to us and will surely give us all forms of support.

I am looking forward to INTACH Madurai going to grass root levels and reinstating various forms of culture. We are on a very responsible position when it comes to conserving our traditions and our intangible heritage. By the grace of god I am sure we all will stay together and tirelessly work towards the cultural up liftment and betterment of our glorious, great, divine City Madurai.
